EXPERIENCE

BRIGHAM YOUNG UNIVERSITY -- IDAHO | TA Supervisor / Data Analyst
April 2026 – August 2026 | Rexburg, Idaho

- Designed Workday analytics pipeline to audit 40+ remote TAs; built automated metric-driven accountability framework.
- Identified performance trends and conducted targeted coaching to align team output with operational standards.

BRIGHAM YOUNG UNIVERSITY -- IDAHO | Teaching Assistant (CSE 210)
September 2023 – Present | Rexburg, Idaho

- Built AI utility generating code exemplars; improved student comprehension of complex programming abstractions.
- Applied LLM-assisted grading pipeline to process 40 weekly essays with consistent quality.

LEADERSHIP

AI SOCIETY | President

- Designed workshops on prompt engineering and local LLM installation for technical and non-technical students.
- Recruited tech executives for campus guest lectures via cold outreach.

PROJECTS

FACTOR | AI Competency Through Objective Results

- Multi-way ANOVA framework evaluating LLM accuracy across foundation models; replaced subjective with empirical metrics.
- Segmented performance data by academic major to extract deployment-ready insights.

STAR IDENTIFIER | Astrophysical ML Classification

- Hybrid ML.NET + rules classifier in C# for stellar profile prediction.
- Built preprocessing pipeline to clean and normalize raw stellar attribute data.

WINGMAN | Generative AI Communication

- Integrated Gemini API for auto-drafted invitation messages demonstrating LLM API orchestration.
- Scaled from prototype to AWS production infrastructure.

PROFILE

AI-focused engineer with a strong statistics foundation, dedicated to building empirical evaluation frameworks and deploying practical LLM solutions. Experienced designing agentic workflows, prompt engineering pipelines, and ML classification systems. Multilingual (Cantonese), service-first mindset.

EDUCATION

BRIGHAM YOUNG UNIVERSITY -- IDAHO
B.S. Computer Science & Statistics
Expected Fall 2028 | Rexburg, ID
Double Major
Cum. GPA: 4.0 / 4.0

Awards:
CTE Presidential Scholar
Eagle Scout Award Recipient
Full-Tuition Academic Scholarship
TestOut PC Prep Certificate

SKILLS

AI & ML
Agentic Engineering
Prompt Engineering
ANOVA & Statistical Modeling
ML.NET • LLM Deployment

LANGUAGES
Python (Polars) • R • C#
SQL • JavaScript

FRAMEWORKS & TOOLS
FastAPI • SQLModel
Docker • AWS • Git

CONCEPTS
OOP • Agile
DevOps • Data Pipelines

PROFESSIONAL
Research • Mentoring
Public Speaking
Multilingual (Cantonese)
